

Innovation
that excites

NISSAN MICRA ACTIVE

YOUR LIFE YOUR RULES

Own the look. Own the performance. Own the Nissan MICRA ACTIVE.
And go to town with the new Nissan MICRA ACTIVE'S sporty
attitude, agile handling and refined styling. From its
signature grille, distinct Halogen headlamps to
the perfectly integrated tailgate, the bold new
Nissan MICRA ACTIVE takes on all comers.
And wins, beautifully.

While the new Nissan MICRA ACTIVE is a city slicker by nature, nature is very much top of mind in its design and technology. Environmental responsibility is evident throughout, from innovative aerodynamic design features to extremely low emissions, resulting in excellent fuel efficiency. This makes the Nissan MICRA ACTIVE even better on all counts: in the city, in the environment, and in your hands.

A highly efficient design philosophy and future-forward thinking ensure that safety and comfort combine seamlessly with aerodynamics and economy. The result is a car that is responsive and smart.

INSIDE OUT

Inside the Nissan MICRA ACTIVE you'll find many convenient storage spaces for all your accessories and gadgets. Because in the Nissan MICRA ACTIVE, you can. An array of convenient and spacious storage compartments offer easy-to-reach storage for frequently used items.

Navigation system is not standard – Accessorised vehicle shown.

BOOMERANG GROOVES

The unique grooves on the roof is an aerodynamic solution that reduces noise at higher speeds. Normally there is a mass damper in the roof, but with the boomerang groove the damper is not necessary.

Agility in the city is critical (aside from looking great, that is!), and you often need to get out of interesting situations as quickly as you got into them. With the Nissan MICRA ACTIVE, you can. High performance suspension and power steering makes navigating the most treacherous of urban roads and bumpy backstreets second nature.

4.7M

Easy to navigate the city thanks to its tight 4.7m turning radius.

GAME CHANGERS

REDESIGNED EXHAUST SYSTEM

The redesigned exhaust system increases eco friendliness, and has eliminated the centre muffler to create a light-weight structure with lower noise levels.

1.2L 3 CYLINDER ENGINE

The Nissan MICRA ACTIVE 3 cylinder, 12 valve engine has less moving parts, reducing friction and thermal loss. Combined with a compact and light-weight engine design, greater fuel efficiency can be achieved.

BIG CITY BIG SAFETY

Getting the most out of the city with Nissan MICRA ACTIVE'S agility and easy handling comes with the confidence of a wealth of safety features, to ensure the city streets don't become the mean streets. So you can let loose your sense of adventure, without losing your sense of responsibility.

HELPS THE DRIVER TO MAINTAIN COMFORTABLE DRIVING

Even when a risk has not appeared, Nissan technologies make it easier for the driver to maintain safe driving conditions. Some of these innovations reduce the driver's burden, while others enhance visibility and awareness of the immediate surroundings at night and when parking, for example.

HELPS THE DRIVER TO RECOVER FROM DANGEROUS CONDITIONS TO SAFE DRIVING

When a risk appears, warnings and automatic countermeasures help the driver avoid it.

HELPS MINIMIZE THE DAMAGE WHEN A COLLISION IS UNAVOIDABLE

In cases when an accident cannot be avoided, additional Nissan technology helps reduce injuries and damage by activating the brakes, restraining passengers, and applying other measures.

HIGH MOUNTED HALOGEN STOP LAMP

High, centre-mounted stop lamp provides maximum visibility deceleration warning to following drivers.

5 HEADRESTS

Seats are equipped with headrests for optimum comfort and safety.

AIRBAGS

Driver and passenger airbags provide added protection in the event of a collision.

ZONE BODY

High strength body consists of a safety zone (high strength cabin) and crush zones (impact absorbing body).

ABS

The Anti-lock Brake System prevents the wheels locking up to maintain control and stability should braking be pushed to the max. EBD and BA are standard.

SPEED SENSITIVE AUTO DOOR LOCK

REMOTE CENTRAL LOCKING
IMMOBILISER

Nissan's commitment to the environment
Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

NISSAN'S commitment to quality: to provide all customers with a consistently high level of quality, Nissan applies the standard worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: **1.** The expectation of a smooth driving experience with complete peace of mind. **2.** The intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. **3.** The level of attentiveness and service during the sales process, and long after the sale is concluded.

NISSAN INTELLIGENT MOBILITY

Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected, and exciting. Whether it's cars that share the task of driving with you, or highways that change your EV as you go along. It's all in the very near future. And it's a future already taking shape in the Nissan you drive today.
