

Innovation  
that excites

# NISSAN NAVARA

# NAVARA LEGACY

MORE THAN  
**80**  
YEARS  
OF TOUGH

Tough, agile and stylish, the Nissan NAVARA is the latest in a long line of Nissan bakkies – we produced our first in 1935. Along the way Nissan pioneered the King Kab in 1977, the innovative Utili-track tie down system in 2005, and now a leader in the use of a coil-spring rear suspension on a 1-ton bakkie. With 14 MILLION NISSAN BAKKIE OWNERS blazing trails in 180 COUNTRIES around the world, our proud legacy of reliability and innovation continues today. As long as there's adventure on the horizon, Nissan will take the lead.

## DEVOURS ROADS, SIPS FUEL.

The Nissan NAVARA shows how power, acceleration and fuel efficiency can not only coexist, but thrive. Powered by an advanced twin-turbo diesel engine with a wide torque curve, the small turbo gets you moving at low engine speeds while the larger one delivers linear, constant power for longer. Top class fuel efficiency is further achieved by using low friction components, reduced mass, wide range gear transmissions and enhanced aerodynamics.

## EXCEPTIONAL FUEL EFFICIENCY

### TWIN-TURBO DIESEL

Generating more power and torque, the twin-turbo diesel engine with 6-speed manual or 7-speed automatic transmission combines high speed with fuel economy.

POWER	140 KW
TORQUE	450 NM @ 1500-2500 RPM
ENGINE DISPLACEMENT	2298 CC
FUEL TYPE	DIESEL (Max 50ppm Sulphur)
EMISSIONS (CO <sub>2</sub> )	FROM 172 G/KM

# TAKE YOUR OWN PATH.

Whether it's the depths of the bush or the concrete jungle, the Nissan NAVARA is always in its element.

## 4-Wheel Active Brake Limited Slip (ABLS)

ABLS individually controls each of the four wheels to optimise traction in challenging conditions, similar to the benefits that a limited slip differential provides. The biggest advantage of ABLS is that it works on all four wheels, not just the two primary driven wheels.

## Intelligent 4x4\*

With the Nissan NAVARA'S All-Mode 4x4-i, you can choose full-time 2WD for maximum efficiency, or shift to 4WD (4H) at speeds up to 100km/h. 4H constantly monitors conditions and adjusts the balance of power between front and rear to maintain traction. Select low range 4WD (4LO) for mud, sandy or difficult terrain.

## Electronic Locking Rear Differential\*

When the road gets tough, push the button to activate the electronic locking rear differential, which delivers equal power to both rear wheels to boost traction and keep you moving forward.

## Hill Start Assist (HSA) and Hill Descent Control (HDC)\*

Facing steep terrain? Now you can do it with more confidence and control. On an incline, Hill Start Assist keeps you from rolling backwards when you're accelerating from a stop. And Hill Descent Control helps you maintain a steady speed, so you get back down a steep incline more safely.

APPROACH ANGLE  
**33°**

## DEPARTURE ANGLE

**27.9°** (4WD models)  
**26.6°** (2WD models)

Departure angle is without towbar fitted

## MIN GROUND CLEARANCE

**229 mm** (LE Grade)  
**226 mm** (SE Grade)

## EXCEPTIONAL COMFORT, SUPERIOR HANDLING.

The Nissan NAVARA was the first mainstream bakkie with a rear coil suspension like large SUVs. The heavy duty 5-link coil suspension versus the traditional rear leaf suspension offers exceptional ride comfort, absorbing the bumps in the road. In addition, the high lateral rigidity with springs, stabiliser and dampers tuned for optimum performance improves steering properties for superior handling and cornering ability on gravel and tar.

**5**  
-LINK  
COIL  
REAR  
SUSPENSION

## PLENTY OF POWER TO PULL.

The boat can definitely come along. Capable towing is engineered right into the Nissan NAVARA, starting with its full-length, fully boxed ladder frame. Add to that heavy duty components, including braking, transmission and cooling systems, plus plenty of power and low-end torque, and you're ready to pull some serious weight.

**3.5T**  
BRAKED  
TOWING CAPACITY

## LOAD UP WITH VERSATILITY.

The Nissan NAVARA is engineered to handle tough jobs and heavy payloads for work or play. A lighter tailgate makes loading and unloading simple. Ensuring any cargo is secure and safe is easy, thanks to Nissan's revolutionary Utili-track tie down system on LE models. Heavy duty moveable cleats can be locked anywhere in special tracks and on the two sides of the bakkie bed, so you can tie down any load, of any shape or size with ease.

**1T** PAYLOAD  
CAPACITY

## **RIDE FIRST CLASS EVERY DAY.**

In the Nissan NAVARA, you'll find unexpected comfort and space from every seat. Astronaut-inspired zero gravity seats create neutral posture and improved blood flow to help make those long rides a lot more comfortable. Plus, Dual Zone Climate Control means you and your passengers can each keep things as cool or warm as you like. The circular side vents pinpoint exactly where you want the air to go - which helps out everyone on board, including rear passengers who have their own vents and driver controlled access to a rear power sliding window at the back. The LE grade comes with leather seats with 8-way power control and seat heat function.

## INNOVATION THAT'S RIGHT IN FRONT OF YOU.

All instruments are in exactly the right spot for quick mastery of your environment. The sporty, leather-wrapped steering wheel with audio controls lets you operate cruise control and the audio system while your hands stay right where they should. The Bluetooth hands free phone system lets you make and take calls with ease.

## NAVIGATION SYSTEM COMES STANDARD

## MASTER YOUR DOMAIN.

The Nissan NAVARA Advanced Drive-Assist Display (ADAD) serves up all the driving information you need in one place. From fuel economy to song tracks, the intuitive 3D depth and tilt design lets you take it all in at a glance.

### ONBOARD NAVIGATION SYSTEM

Radio with RDS that stores 30 stations, DVD/VCD/CD/MP3/MPEG4 format, USB function, Bluetooth with audio streaming, touch screen, Navigation with 3D mapping and live traffic update - all operated from your steering wheel.

# SURROUND YOURSELF WITH CONFIDENCE

**PROTECT, RESPOND, MONITOR.** Wouldn't it be smart if you had the confidence you need for every part of your drive? The features described here are just some of many on your Nissan NAVARA, helping to protect you and yours by focusing on three key areas: keeping an eye on your vehicle's systems and the surroundings, assisting in handling unexpected situations, and helping to keep you safe in the unfortunate event of an accident.

**Traction Control System (TCS).** TCS helps you keep a better grip on the road. It senses when a wheel starts to slip and reduces engine power or applies brake pressure to help restore traction.

**Zone Body Concept.** Nissan's Zone Body Concept helps absorb the impact and protect the passenger compartment during a collision. It features a high-intensity cabin structure with crossmembers and reinforcements, front and rear crumple zones, and an energy-absorbing steering column.

**Electronic Limited Slip Differential (eLSD).** In low-traction conditions (mud, dirt, bumps, slopes, etc.) the vehicle senses if one wheel is slipping and automatically slows that wheel using the brakes to regain traction and keep you moving. Works on all 4 wheels.

**Around View Monitor.** The Navara LE grade comes standard with Around View Monitor. Displayed in the rear-view-mirror, the Around View Monitor uses four cameras positioned at different points, giving the driver a 360-degree, aerial view of his vehicle and its surrounds.

In addition, the LE grade has Parking Sensors which provide an audible warning to drivers when objects are behind the vehicle when reversing.

**Reverse Camera.** SE grade models come standard with Reverse Camera including parking guidelines.

## NISSAN INTELLIGENT MOBILITY

**7 Airbags Standard.** Driver and passenger airbags in the front, two side-impact air bags mounted in the front seats, two side-impact curtain air bags mounted in the roof and a driver knee airbag.

**Vehicle Dynamic Control (VDC).** VDC monitors your steering, braking and the vehicle's stability and, if needed, will reduce engine output and apply brake pressure to specific wheels in order to keep you on your intended path.

**Anti-lock Braking System (ABS).** ABS prevents the wheels from locking under hard braking, allowing you to stop quicker and at the same time steer around obstacles.

**Electronic Brakeforce Distribution (EBD).** EBD automatically sends extra force to the rear brakes when it detects there's additional weight in the back.

All Nissan NAVARA models include reverse camera standard & parking sensors on the LE model.

## COLOURS

WHITE - QM1 (S)

## ACCESSORY OPTIONS

Black TUFF 18" alloy wheels  
(fits OE tyre size : 255/60R18)  
(set of wheels = 4 pieces)

Fender Flares

The NAVARA STEALTH is available on LE-Grade derivatives.  
Colours are representative only. Due to the limitations of the printing processes used, the colours shown may differ slightly from the actual colours of the paint and interior trim materials used.  
The sports bar is an accessory that we fit standard; because it's an accessory it has a one year warranty.  
Visit your Nissan Dealer for actual paint and trim options  
Note, the warranty on the sports bar is 1 year.

# STAY IN SHAPE WITH NISSAN APPROVED ACCESSORIES.

Nissan Approved Accessories are specifically designed and manufactured to fit the Nissan NAVARA to ensure optimal vehicle performance in support of your vehicle warranty. Nissan accessories comply with Nissan Accessory Design Standards to ensure best performance, durability, quality

and support. Our core styling items have been engineered, tested and approved by Nissan's Global Design Centre. This means fitting accessories from Nissan approved dealerships maintains the vehicle's safety and integrity and will not affect the 6-year or 150 000km warranty.

## NISSAN NAVARA APPROVED ACCESSORIES

### YOUR VEHICLE - THE WAY YOU WANT IT

Whether you're looking to enhance the styling or improve the versatility of your Nissan vehicle, Nissan Approved Accessories allow you to apply your personal touch.

### THE ONLY CHOICE FOR QUALITY AND DURABILITY

Like every one of our vehicles, all Nissan Approved Accessories are specifically designed and manufactured to exacting standards for superb quality, durability and performance. So it's critical that, to ensure the safety, efficiency and robustness of your Nissan, only Nissan Approved Accessories are ever used.

### QUALITY GUARANTEED - OUR PROMISE

Nissan South Africa (PTY) Ltd warrants all Nissan Approved Accessories, supplied by Nissan and sold by and authorised Nissan dealer from date of purchase. The terms and conditions of the warranty vary across the accessory product range.

# ~~WE MAKE PROMISES.~~ WE KEEP PROMISES.

INTRODUCING NISSAN ASSURED, IT'S MORE THAN A PROMISE. AS PART OF THE NISSAN FAMILY YOU'RE GUARANTEED OUR COMMITMENT TO CUSTOMER CARE. A LASTING BOND BETWEEN YOU, YOUR VEHICLE AND THE NISSAN BRAND. THAT'S OUR PROMISE.

## CUSTOMER EXPERIENCE

We promise to make your Nissan experience one to cherish, from your delivery day and every day after, our commitment is to deliver a service experience you can trust – and believe in.

## CUSTOMER SUPPORT ROADSIDE ASSISTANCE

We keep you on the road 24/7. Should anything unexpected happen we guarantee you 24-hour roadside assistance, no matter the age of your Nissan, because it's still a Nissan. Just call **0800 NISSAN (46 77 26)** anywhere, anytime. Terms and Conditions do apply.

## LICENCE RENEWAL REMINDER

We'll remind you in advance so you can keep your licence disk up to date.

## 3 YEAR OR 90 000KM SERVICE PLAN

For the first 3 years or 90 000km of driving your car, whichever comes first, you can rest easy knowing that our promise to you is a kept one. We'll make sure your car is running smoothly and always on the road.

## 6 YEAR OR 150 000KM WARRANTY

As long as your car is under our warranty, we'll always have you covered if anything goes wrong. You don't need to stress for the first 6 years or 150 000km, whichever comes first.

## SERVICE AND REPAIRS FREE VEHICLE HEALTH CHECK

We'll give your car a free health check on every major and minor service prior to any work being carried out, so you know exactly what needs to be done, and how much it will cost.

## COMPETITIVELY PRICED PARTS

We deliver the highest care for your Nissan by fitting only Nissan Genuine Parts. The expertise of our Nissan trained teams will also guarantee best value-for-money by finding the most competitively priced part for your local dealer.

## COURTESY CAR

We will arrange a courtesy car for all warranty repairs should the components required not be available within 48 hours.

**NOTICE, FUEL CONSUMPTION AND EMISSIONS**

Quoted fuel consumption and emission values have been established using the prescribed method of measurement (United Nations Economic Commission for Europe "ECE" Regulation R101 in the current version) as required under legislation. The fuel economy information is "ideal world" testing figures, supplied for the purpose of comparison between the various types of vehicles. In "real world" driving conditions, other factors such as driving style, fuel quality, weather, altitude, tyre pressure, etc. can all influence the fuel consumption results for any given vehicle.

Optional equipment can result in an increase/decrease in the unladen weight and consequently affect the payload. Due to production tolerances/tyre sizes/type of running gear, the actual dimensions can differ slightly from the figures supplied in this brochure.

**NOTICE, TOWING ADVISORY**

The stated towing capacity is the maximum trailer mass that the Nissan NAVARA is designed to tow. However, the combined mass of the vehicle and trailer should never exceed the Gross Combination Mass of the vehicle. Should the gross mass of the trailer exceed 750 kilograms, but not exceed the vehicle Tare, the trailer should be equipped with a parking brake and either an overrun brake or service brake. Should the Gross Vehicle Mass of the trailer exceed 750 kilograms as well as the vehicle Tare, but not exceed 3 500 kilograms (3.5 tons), the trailer should be equipped with a parking brake and a service brake.

**NOTICE, MASS AND CAPACITIES**

**Kerb weight** refers to the unladen weight of the vehicle including a full tank of fuel.

**Payload** refers to the total carrying capacity of vehicle (without vehicle Kerb weight), including driver, passengers and load.

**Gross Vehicle Mass (GVM)** refers to the maximum allowable mass of the vehicle when fully loaded, including driver, passengers, fuel and load.

**Gross Combination Mass (GCM)** refers to the maximum allowable mass of the vehicle (GVM) and towed/trailer mass.

**NISSAN's commitment to the environment**  
Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

**NISSAN'S commitment to quality:** to provide all customers with a consistently high level of quality, Nissan applies the standard worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: 1. The expectation of a smooth driving experience with complete peace of mind. 2. The intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. 3. The level of attentiveness and service during the sales process, and long after the sale is concluded.
